Copy of Certificate of Inspection.

OFFICE OF THE ILLINOIS STATE ENTOMOLOGIST.

Urbana, Ill., August 4, 1911.

This is to certify that the growing nursery stock and premises of Emil Pacatte, situated near Pierron, Illinois, have been inspected by H. C. Hyatt, a duly appointed inspector of this office, according to the provisions of an act to prevent the introduction and spread in Illinois of the San Jose scale and other dangerous insects and contagious diseases of fruits, in force July 1, 1907, and that said nursery and premises are apparently free from the San Jose scale and other dangerous insects and dangerous plant diseases.

This certificate applies only to the condition of this nursery for the year ending July 20, 1912.

No. 23 S. A. FORBES, State Entomologist.

LOCATION—Pierron is 37 miles northeast of St. Louis on the Vandalia-Pennsylvania Railroad.

As the leaves of the trees are said to absorb all noxious qualities of the air and breath forth a purer atmosphere, so it seems to me as if they drew from us all sordid and angry passions and breathed forth peace and philanthropy.—Irving.
